MINNESOTA HIGHER EDUCATION Facilities Authority

Honorable Rudy Perpich, Governor Members of the Legislature State Capitol St. Paul, Minnesota 55155

Members of the Higher Education Coordinating Board Suite 400, Capitol Square Building St. Paul, Minnesota 55101

Dear Governor Perpich, Members of the Legislature, Members of the Higher Education Coordinating Board:

The Minnesota Higher Education Facilities Authority is pleased to send its Annual Report for Fiscal Year 1986.

This past year will be remembered most for tax revision. In Congress, the House passed the Rostenkowski Bill. The Senate, in turn, passed the Packwood Bill. The Conference Committee passed a composite tax revision bill; and both Houses of Congress agreed to a bill substantially the same as the Conference Committee bill. The President signed it into law on October 22, 1986.

The tax exempt bond market will never be the same. However, I am pleased that Congress and the President have retained substantially the same benefits as before for 501(c)(3) organizations. These are made up primarily of private colleges and hospitals.

The Minnesota legislature was particularly responsive to the dangers of the House Bill 3838, passed in December of 1985, by passing its own legislation making it possible to finance college projects during the interim period. The Authority members are grateful to the members of the Governor's executive team who prepared this joint consensus bill. The Authority staff was happy to be a part of this effort.

Four colleges received financing this past fiscal year from the Authority. The Minneapolis College of Art and Design used \$830,000 to acquire, construct, furnish and equip a bookstore, student gallery and an artist work space. Proceeds were also used to remodel the main college building and purchase equipment for the computer lab. The College of St. Scholastica used \$1,065,000 to removate and expand the college library. Macalester College received \$5,075,000 to remodel the student union, removate the gymnasium and construct and equip a natatorium. Finally, the College of St. Thomas used \$5,500,000 to construct, equip and furnish two additional floors on two existing dormitories. October 29, 1986

Page Two

The Authority has also reviewed applications from Hamline University, William Mitchell College of Law and the College of St. Teresa. Vermilion Community College has also inquired whether the Authority can issue bonds for public institutions. The College of St. Teresa has since withdrawn its application. The other colleges are moving along at their own pace to complete the financing of their projects. Golden Valley Lutheran College continues to look for a purchaser of its campus in order to pay back its loan from the Authority.

The Authority has had 43 bond issues (including the refunded and retired issued) totaling \$140,360,000, of which \$104,685,000 is outstanding as of June 30, 1986.

Judging from the early interest of quite a few colleges, the coming fiscal year will be most gratifying in improving and maintaining the many private college campuses in Minnesota. The Authority members look forward to serve well this higher educational community.

Respectfully submitted,

Earl R. Herring Chairman

THE AUTHORITY

The Minnesota Higher Education Facilities Authority was created by Chapter 868, Laws of Minnesota, 1971 (Sections 136A.25 through 136A.42, Minnesota Statutes), for the purpose of assisting institutions of higher education within the State in the construction and financing of projects. The Authority consists of eight members appointed by the Governor with the advice and consent of the Senate, a ninth member who is the Executive Director of the Minnesota Higher Education Coordinating Board and a tenth non-voting member who is President of the Minnesota Private College Council.

Dr. Joseph E. LaBelle has been the Executive Director of the Authority since its inception.

The Authority is authorized and empowered to issue revenue bonds whose aggregate outstanding principal amount at any time shall not exceed \$150 million. The Authority has had 43 bond issues (including refunded and retired issues) totaling \$140,360,000 of which \$104,685,000 was outstanding as of June 30, 1986. Bonds issued by the Authority can be payable only from the rentals, revenues and other income, charges and moneys pledged for their payments. The bonds of the Authority do not represent or constitute a debt or pledge of the faith or credit or moral obligation of the State of Minnesota.

Educational institutions eligible for assistance by the Authority include nonprofit educational institutions authorized to provide a program of education beyond the high school level. Sectarian institutions are not eligible for assistance. However, the fact that an institution is sponsored by a religious denomination does not of itself make the institution sectarian. Application to the Authority is voluntary.

The scope of projects for which the Authority may issue bonds is broad, including buildings or facilities for use as student housing, academic buildings, parking facilities and other structures or facilities required or useful for the instruction of students, or conducting of research, or in the operation of an institution of higher education.

Although the Authority retains broad powers to oversee planning and construction, it is current policy to permit the institution almost complete discretion with respect to these matters.

The Authority can issue tax-exempt revenue bonds to refinance debts incurred by Minnesota private colleges in the construction of facilities used solely for nonsectarian education purposes.

The Authority is also authorized to issue revenue bonds for the purpose of refunding bonds of the Authority then outstanding, including payment of any redemption premium thereon and any interest accrued or to accrue to the earliest or any subsequent day of redemption.

The Authority is financed solely from fees paid by the institutions; it has no taxing power. Commencing as of the date of issue and payable at the beginning of each year thereafter during the life of the bonds, the Authority receives an annual fee, currently .2% of the original principal amount of the issue for its original term, regardless of whether the issue is prepaid, unless the Authority waives its rights to such payment.

Bond issuance costs, including fees of bond counsel, the financial advisor and trustee, are paid by the institution. The fees of bond counsel and the financial advisor usually are paid from bond proceeds.

*Pursuant to its General Bond Resolution adopted October 31, 1972, the Authority has established and maintains a General Bond Reserve Account. This secures certain Bonds of the Authority for which a deposit has been made into this reserve account in compliance with the General Bond Resolution. The Authority, at the June 5, 1984, meeting repealed the ruling that required colleges to contribute to the General Bond Reserve. The above information is an analysis and a breakdown of the funds in the Reserve.

Executive Director and Chairman of the Board Minnesota Higher Education Facilities Authority St. Paul, Minnesota

We have examined the balance sheets of the funds of the Minnesota Higher Education Facilities Authority as of June 30, 1986, and the related statements of revenues and expenses and changes in fund balance and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances. The financial statements of the Minnesota Higher Education Facilities Authority for the year ended June 30, 1985, were examined by other auditors whose report dated August 30, 1985, expressed an unqualified opinion on those statements.

In our opinion, the 1986 financial statements referred to above present fairly the financial position of the funds of the Minnesota Higher Education Facilities Authority as of June 30, 1986, and the results of their operations and changes in their financial position for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS

YEARS ENDED JUNE 30, 1986 AND 1985

A. Authorizing legislation and funds:

AUTHORIZING LEGISLATION:

The Minnesota Higher Education Facilities Authority is a state agency created to assist nonprofit institutions of higher education in financing the construction of educational facilities. The Authority is authorized to have a maximum of \$150 million of revenue bonds outstanding. Bonds issued by the Authority are payable only from specified revenues and collateral and do not constitute a debt of the State of Minnesota.

FUNDS:

The following describes the funds maintained by the Authority, all of which conform with the authorizing legislation, bond resolutions and trust indentures.

General Operating Fund

The unrestricted revenues of the General Operating Fund consist principally of the following fees paid by the participating institutions:

Bond issuance fees - .35% of original bond principal (after October 1985, no bond issuance fees are charged).

Annual administrative fees - .2% of original bond principal until repayment (.125% of the original bond principal for applications received prior to August 12, 1975).

General and administrative expenses of the Authority are paid from unrestricted assets. Assets arising from the financing activities, including debt service reserves and assets in the General Bond Reserve Fund are appropriated for the purposes specified in the trust indentures and cannot be used to pay the operating expenses of the Authority.

The restricted assets of the General Operating Fund consist of capitalized financing leases and promissory notes receivable. Separate trust accounts are maintained to account for the proceeds of each bond issue, to receive rental and loan payments and to accumulate the required reserves and sinking funds stipulated in the related trust indentures. Proceeds of the bonds are held by a trustee and invested in specified securities until withdrawn for payment of construction costs or debt service.

Under the terms of each net lease or loan agreement, the participating institution leases the project from the Authority or makes loan repayments over the life of the bond issue. The agreements define rental and loan payments as the amount required to provide sufficient revenues to fund debt service, principal redemptions and other related expenses.

Rental and loan payments to be received from the participating institutions are reduced by the amount of income earned on the investments in the required reserves (other than the General Bond Reserve) and sinking funds stipulated in the trust inden-tures.

Upon retirement of a bond issue, any remaining assets in the related trust accounts are rebated to the participating institution.

General Bond Reserve Fund

A specified portion of the proceeds from certain issuances of Authority bonds is deposited in the General Bond Reserve Fund. Monies in the fund are invested in United States obligations and certificates of deposit. The investments and the earnings thereon are pledged as collateral for repayment of all related revenue bonds outstanding. Upon repayment of its bonds, a participating institution is rebated its share of the fund consisting of the institution's original deposit adjusted for a proportionate share of fund earnings and charges for collateral payments, if any, to date.

B. Accounting policies:

The following is a summary of the significant accounting policies applied in the preparation of these financial statements.

BASIS OF ACCOUNTING:

The Authority follows the accrual basis of accounting.

INVESTMENTS:

Investments are stated at cost adjusted for amortization of purchase discount or premium, if any.

BOND DISCOUNTS:

Bond discounts are amortized under the interest method over the term of the related bond series.

♦Touche Ross

FURNITURE AND EQUIPMENT:

Office furniture and equipment is stated at cost and depreciated on the straight-line method over the estimated useful lives of the assets.

ISSUANCE COSTS:

Bond issuance costs are expensed as incurred.

ACCOUNTING FOR FINANCING AGREEMENTS:

Lease agreements have been accounted for as direct financing leases in accordance with Statement No. 13 of the Financial Accounting Standards Board (FASB). The net investment is comprised of the total lease payments receivable under the contract, less unearned income. The unearned finance income is recognized as revenue over the lease term as interest expense is recognized. This method approximates a constant rate of return on the net investment in the contract. Since the participating institutions have the option to acquire the project from the Authority at the expiration of the lease for \$500, the estimated residual value of the property under lease at the end of the lease term is not included in the net investment. Loan agreements are accounted for substantially the same as lease agreements.

RECLASSIFICATIONS:

Certain reclassifications have been made in the 1985 financial statements to conform to the classifications used in 1986. These reclassifications have no effect on fund balances as previously reported.

C. Investments:

Investments at June 30, 1986 are comprised of:

	General Oper	General Bond	
	Unrestricted	Restricted	Reserve Fund
U.S. Government and agencies Federated trust	\$775,000	\$20,468,259	\$2,888,900

The federated trust accounts are diversified investment funds which offer daily liquidity and invest primarily in U.S. Treasury and agency securities. Federated trust account funds and deposits are carried at cost which approximates market

7

value. U.S. Government securities are carried at cost net of unamortized discounts and premiums which approximates market value. Investments of the restricted operating funds are held by independent trustees.

D. Financing agreements:

The annual payments required under financing agreements are sufficient to fund debt service, principal redemptions and other related expenses. The term of each agreement corresponds to the maturity of the related bond issue. All agreements are recorded as financing leases except Series GG, 1983-A, HH, 1985-1, II, JJ, KK and LL which are recorded as promissory notes receivable.

The Authority's net investment in finance agreements consist of the following at June 30, 1986:

	Financing leases	Promissory notes	Total

come earned on the investments in the required reserves and sinking funds stipulated in the

At June 30, 1986 future minimum payments to be received under financing agreements, including income earned on the investments as noted above, approximates:

Aggregate principal and interest are due on the revenue bonds equal to the future minimum payments to be received under financing agreements as shown in Note D. Under the terms of the related trust indentures, each bond issue is collateralized as follows:

call premium of the bonds being refunded. A June 30, 1986 \$7,711,500 was escrowed with the trustee for the payment of the outstanding defeased principal of \$7,455,000. The last payment on the defeased debt is due July 1, 1994.

H. Collectability of Series S rentals receivable:

The Board of Regents of Golden Valley Lutheran College have made a decision to close the school and campus and have ceased making payments under their lease financing agreement. Restricted Series S reserves in the general operating fund were used to meet the Series S April 1, 1985 principal and interest payments and the October 1, 1985 interest payments. The April 1, 1986 principal and interest payments were made with the remaining funds in the Series S reserves and \$102,294 advanced by the authority from the General Bond Reserve Fund (included in General Bond Reserve Fund investments at June 30, 1986). The rental receivable related to Series S is \$1,693,978 and the related revenue bond principal outstanding is \$1,525,000 at June 30, 1986. Management of the Authority believes that no losses will be incurred related to Series S.
