## **1992 Annual Report**

November 1, 1992

Honorable Arne Carlson, Governor Members of the Legislature State Capitol St. Paul, Minnesota 55115

Members of the Higher Education Coordinating Board Suite 400, Capitol Square Building St. Paul, Minnesota 55101

Dear Governor Carlson, Members of the Legislature, Members of the Higher Education Coordinating Board:

The Minnesota Higher Education Facilities Authority is pleased to send its Annual Report for Fiscal Year 1992.

News reports the past year have painted a somewhat dismal picture of the national economy. We are in a prolonged recession. There is a noted increase in household debt. College costs continue to increase at a rate greatly in excess of the rate of inflation. Although Congress reauthorized and the President signed the Higher Education Act, Congress did not pass enabling legislation to finance the programs sufficiently. Much more could be added to the list. In spite of all these woes, most Minnesota private colleges have done well this past year. Major fund drives, strong management, and a clear definition of mission are some of the reasons for this success. What is of particular interest to the Authority is the strong commitment by most private colleges to improve and enhance their college campuses. Many have come to the Authority this past year for help with their debt financing programs.

The following colleges have applied for and received financing for capital improvements this past fiscal year. Hamline University received \$4,430,000 in August, 1991. The proceeds were used to advance refund their Series Two-G bonds; the balance was used to renovate three student housing facilities, to purchase and install campus-wide signage, and miscellaneous deferred maintenance projects. Hamline University also received \$4,456,000 in May, 1992. The University used the proceeds to redeem the bonds outstanding from Series Two-A. This series financed the construction of the Law Center in 1980.

The University of St. Thomas received \$10,200,000 in April, 1992. The bond proceeds were used to purchase and install a new telecommunications system; to replace and upgrade new boilers; and expand the physical plant headquarters on the St. Paul campus.

Augsburg College received \$9,645,000 in May, 1992. The College used the money to construct, furnish and equip a new student residence; and the remaining proceeds to refinance a note originally issued to finance a portion of the Foss, Lobeck and Miles Center.

Macalester College received \$15,670,000 in June, 1992. The College refunded Series Two-J; remodeled, furnished and equipped the Humanities Wing of the Janet Wallace Fine Arts Center; renovated the interior of Old Main; acquired and set up a telecommunications network; renovated and improved track and field facilities; and acquired and installed a keyless identification system.

St. John's University received \$5,000,000 in June, 1992. The proceeds were used to construct, furnish and equip a new Campus Center; and to construct, furnish and equip a new student residence facility.

The Authority has had 68 bond issues totaling \$281,785,000 of which \$176,984,767 is outstanding as of June 30, 1992. The Authority has also approved applications from Carleton College (\$24,300,000) and College of St. Catherine (\$8,700,000) but have not yet issued the bonds.

The private colleges in Minnesota have played a remarkable role in the educational development of its young women and men for the past 138 years. Hopefully, the work of the Authority these past 21 years has prepared the private colleges to continue and thrive well through the next century.

Respectfully submitted,

Carol A. Blomberg Chairperson

## THE AUTHORITY: ITS PURPOSE

The Minnesota Higher Education Facilities Authority was created by Chapter 868, Laws of Minnesota, 1971 (Sections 136A.25 through 136A.42, Minnesota Statutes), for the purpose of assisting institutions of higher education within the State in the construction and financing of projects. The Authority consists of eight members appointed by the Governor with the advice and consent of the Senate, a ninth

member who is the Executive Director of the Minnesota Higher Education Coordinating Board and a tenth non-voting member who is President of the Minnesota Private College Council. Dr. Joseph E. LaBelle has been the Executive Director of the Authority since its inception.

## THE AUTHORITY: ITS ROLE

The Authority is authorized and empowered to issue revenue bonds of which the aggregate outstanding principal amount at any time shall not exceed \$350,000,000. The Authority has had 68 bond issues (including refunded and retired issues) totaling \$281,785,000 of which \$176,984,767 was outstanding as of June 30, 1992. Bonds issued by the Authority can be payable only from the rentals, revenues and

other income, charges and moneys pledged for their payments. The bonds of the Authority do not represent or constitute a debt or pledge of the faith or credit or moral obligation of the State of Minnesota.

# WHO IS ELIGIBLE?

Institutions eligible for assistance by the Authority include nonprofit educational institutions authorized to provide a program of education beyond the high school level. Sectarian institutions are not eligible for assistance. However, the fact that an institution is sponsored by a religious denomination does not of itself make the institution sectarian. Application to the Authority is voluntary. The scope of projects for which the Authority may issue bonds is broad,

including buildings or facilities for use as student housing, academic buildings, parking facilities and other structures or facilities required or useful for the instruction of students, or conducting of research, in the operation of an institution of higher education. The Authority can issue tax-exempt revenue bonds to refinance debts incurred by Minnesota higher education institutions in the construction of facilities used solely for nonsectarian education purposes.

## NDEPENDENT AUDITORS' REPORT

Executive Director and Members of the Minnesota Higher Education Facilities Authority Saint Paul, Minnesota

We have audited the accompanying balance sheets of the funds of the Minnesota Higher Education Facilities Authority as of June 30, 1992 and 1991, and the related statements of revenues, expenses and changes in fund balances, and cash flows for the years then ended. These financial statements are the responsibility of the Authority's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the financial position of the funds of the Minnesota Higher Education Facilities Authority as of June 30, 1992 and 1991, and the results of its operations and its cash flows for the years then ended, in conformity with generally accepted accounting principles.

## NOTES TO FINANCIAL STATEMENTS

## **1.** Authorizing legislation and funds:

### **A**uthorizing Legislation

The Minnesota Higher Education Facilities Authority (the Authority) is a state agency created to assist nonprofit institutions of higher education in financing the construction of educational facilities. The Authority is authorized to have a maximum of \$350 million of revenue bonds outstanding. Bonds issued by the Authority are payable only from specified revenues and collateral and do not constitute a debt of the State of Minnesota.

### Funds

The following describes the funds maintained by the Authority, all of which conform with the authorizing legislation, bond resolutions and trust indentures.

#### **General Operating Fund**

The unrestricted revenues of the General Operating Fund consist principally of annual administrative fees paid by the participating institutions of .125% of the outstanding bond principal (.125% of the original bond principal for applications received prior to August 12, 1975 and .2% of the original bond principal balance for applications received subsequent to August 11, 1975 and bonds issued prior to December 19, 1989).

General and administrative expenses of the Authority are paid from unrestricted assets. Assets arising from financing activities, including debt service reserves and assets in the General Bond Reserve Fund are appropriated for the purposes specified in the trust indentures and cannot be used to pay the operating expenses of the Authority.

The restricted assets of the General Operating Fund consist of capitalized financing leases and loans receivable. Separate trust accounts are maintained to account for the proceeds of each bond issue, to receive rental and loan payments and to accumulate the required reserves and sinking funds stipulated in the related trust indentures.

Proceeds of the bonds are held by trustees and invested in specified securities until withdrawn for payment of construction costs or debt service.

Under the terms of each net lease or loan agreement, the participating institution leases the project from the Authority or makes loan repayments over the life of the bond issue. The agreements define rental and loan payments as the amount required to provide sufficient revenues to fund debt service, principal redemptions and other related expenses.

Rental and loan payments to be received from the participating institutions are reduced by the amount of income earned on the investments in the required reserves (other than the General Bond Reserve) and sinking funds stipulated in the trust indentures.

Upon retirement of a bond issue, any remaining assets in the related trust accounts are distributed to the participating institution.

#### **General Bond Reserve Fund**

A specified portion of the proceeds from certain issuances of Authority bonds is deposited in the General Bond Reserve Fund. Monies in the fund are invested principally in United States obligations and Federated Trust accounts. The investments and the earnings thereon are pledged as collateral for repayment of all related revenue bonds outstanding. Upon repayment of its bonds, a participating institution receives a distribution of its share of the fund consisting of the institution's original deposit adjusted for a proportionate share of fund earnings and charges for collateral payments, if any, to date. The distribution is shown as a reduction in fund balance. The Authority functions as a custodian for general bond reserve fund deposits; the institutions involved retain the right to reimbursement of deposits and interest thereon (provided all terms of the rental or loan agreement have been met) as well as responsibility for losses resulting from collateral payments made.

## YEARS ENDED JUNE 30, 1992 AND 1991

## **2.** Accounting policies

The following is a summary of the significant accounting policies applied in the preparation of these financial statements.

#### **Basis of Accounting**

The Authority follows the accrual basis of accounting.

#### Investments

Investments are carried at amortized cost. In those instances where market values are below amortized cost, no provision for loss has been provided since the Authority has the intent and ability to hold the securities to maturity.

#### Bond Discounts

Bond discounts are amortized under the interest method over the term of the related bond series.

#### Furniture and Equipment

Office furniture and equipment is stated at cost and depreciated on the straight-line method over the estimated useful lives of the assets, generally five and ten years.

#### Accounting for Financing Agreements

Lease agreements have been accounted for as direct financing leases in accordance with Statement No. 13 of the Financial Accounting Standards Board (FASB). The net investment is comprised of the total lease payments receivable under the contract, less unearned income. The unearned finance income is recognized as revenue over the lease term as interest expense is recognized on the related bonds payable. This method approximates a constant rate of return on the net investment in the contract. Since the participating institutions have the option to acquire the project from the Authority at the expiration of the lease for \$500, the estimated residual value of the property under lease at the end of the lease term is not included in the net investment. Loan agreements are accounted for substantially the same as lease agreements.

#### **Income Taxes**

The Authority is an agency of the State of Minnesota and is exempt from federal and state income taxes. Accordingly, no provision for income taxes is necessary.

#### **Statement of Cash Flows**

The Authority follows Governmental Accounting Standards Board Statement No. 9 (GASB 9), "Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting."

The Authority considers all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased to be cash equivalents.

#### **Arbitrage Regulations**

The tax-exempt bonds issued by the Authority are subject to the 1986 Tax Reform Act regulations relating to arbitrage reporting and rebate. Any earnings in excess of the bond yield must be remitted to the United States Government not more than five years following the issue date of the bonds. These regulations relate only to bonds issued subsequent to December 31, 1985. At June 30, 1992 and 1991 amounts rebatable relating to such excess earnings were not significant.

## **3.** Investments

Investments consist of those permitted by the various bond indentures or by Authority policy. Investments include government bonds, notes, bills, mortgages and other securities which are direct obligations or are guaranteed or insured issues of the United States, its agencies, its instrumentalities or organizations created by an act of Congress.

In addition, for colleges meeting certain criteria, the bond proceeds may be invested in general obligation or revenue bonds of any state or any political subdivision provided the general obligation bonds are rated AA or better for states and AAA or better for political subdivisions, and revenue bonds are rated AAA or better for both. Savings accounts, time deposits and certificates of deposit with commercial banks, savings and loans and mutual savings banks are allowed provided they are fully insured by a federal agency. In some cases, investment agreements with corporations rated AA by Standard and Poor or Aa by Moody's are allowed as well as repurchase agreements fully collateralized by United States government securities. Also allowed is commercial paper maturing in 365 days or less and rated within the top two categories without gradation by either Standard and Poor or by Moody's.

The federated trust accounts are diversified investment funds which offer daily liquidity and invest primarily in U.S. Treasury and agency securities. Federated trust account funds and deposits consisting of certificates of deposit and minor demand deposits are carried at cost which approximates market value. U.S. Government securities are carried at cost net of unamortized discounts and premiums. Investments are held by independent trustees in the Authority's name (GASB No. 3 Credit Risk Category 1).

## 4. Financing agreements

The annual payments required under financing agreements are sufficient to fund debt service, principal redemptions and other related expenses. The term of each agreement corresponds to the maturity of the related bond issue. All agreements through Series FF are recorded as financing leases. Agreements commencing with Series 1985-1 have been recorded as loans receivable.

The Authority's net investment in financing agreements consists of the following at June 30, 1992 (with comparative totals at June 30, 1991):

			June 30, 1992				
		Financing leases	Loans receivable	Total	June 30, 1991		
	Total minimum payments to be received	\$ 270,586,597	\$ 51,341,587	\$ 321,928,184	\$ 267,916,221

Assets held in trust consist primarily of bond proceeds used to fund debt service reserves and construction accounts and are reported as cash and cash equivalents and investments.

Total minimum payments to be received consist of those from the participating institutions and from income earned on the investments in the required reserves and sinking funds as stipulated in the trust indentures.

At June 30, 1992 future minimum payments to be received under financing agreements to support aggregate bond payments approximates:

Aggregate principal and interest due on the revenue bonds are equal to the future minimum payments to be received under financing agreements as shown in Note 4. Under the terms of the related trust indentures, each bond issue is collateralized as follows:

- All assets financed by the bond issue except Series FF which is insured by the American Municipal Bond Assurance Corporation (AMBAC).
- All rights and revenues (except Authority fees) under the financing agreement between the Authority and the institution.
- A security interest in the assets of the General Bond Reserve Fund for all bonds through Series Z.
- Restricted assets in the General Operating Fund pertaining to each issue, including a debt service reserve for all issues except Series O and T.
- Investments pledged as collateral by the institutions and not included in restricted assets of the General Operating Fund, with a market value not less than the following amounts as of June 30, 1992, as follows:

Series O		\$ 5,174,592
Series T		3,330,543
Series KK	· •	782,590

• Irrevocable letter of credit for Series DDD of \$5,208,987.

In June 1991, the Authority issued bond Series FFF with a face value of \$2,950,000 for the purpose of refunding Series HH. A portion of the proceeds of the refunding issue were deposited with a trustee. These funds were used to pay the principal and interest on the refunded bonds which were subsequently redeemed.

In June 1991, the College of St. Scholastica deposited \$1,346,000 with a trustee with instructions to purchase certain investments such that the principal amount and accrued interest thereon, will be sufficient to pay the principal and interest of Series BB and Series LL bonds upon redemption. The last payments on the defeased debt are due May 1, 1993 and December. 1, 2001, respectively. At June 30, 1992, outstanding principal on the Series BB and Series LL bonds was \$370,000 and \$820,000, respectively.

During the year ended June 30, 1992, the Authority issued bond Series AAA, Series JJJ and Series KKK for the purpose of refunding Series GG, Series JJ and Series AA, respectively. A portion of the proceeds of each refunding issue were deposited with a trustee to be used to pay the principal and interest on the refunded bonds. Series GG and Series AA were subsequently redeemed. Series JJ bonds of \$4,875,000 are scheduled to be redeemed in September 1992.

## 6. Lease commitment

The Authority has a lease commitment for office space of \$3,666 per month through November 1992 and \$3,038 per month from December 1992 through November 1997 with remaining aggregate payments of \$200,595 at June 30, 1992. Rent expense was \$37,979 for each of the years ended June 30, 1992 and 1991.
